Our Story

Successful projects

Covid Support

2012 - 2021

Open Hackademy is Open Source training center in Paris, France. The center has been using Moodle LMS since 2012.

2019 - 2020

We have supported The Directorate General of Civil Aviation (DGAC) in France to maintain training platform.

2020 - 2021

We supported Hanoi University in building their own learning platform on Moodle LMS.

2021

During the Covid-19 pandemic, we supported Vietnamese teachers to use linedu.linagora.com for free.

LINEDU Platform

LINEDU Support

Just liberate yourself from the process of:

Hosting – Installation – Maintenance

Our Moodle LMS maintenance service every 6 months helps to ensure your excellent Moodle performance. We will present new version with improvements & migration plan (every 12 months).

We also offered reliable and affordable web hosting services that allow for premier management of your learning site.

Setting – Backup – Migration – Upgrading

Our data migration service ensures that your data is backed up and migrated easily, efficiently and completely without impacting your existing business, to your new system.

Customization in terms of design & system

Our experts work closely with you to design your own learning site on Moodle LMS and build distinct functions as requested exclusively for your organisation.

Report & Analyzing databases

Understanding more about user behavior and Moodle LMS performance through reports. We support you to analyze databases collected from your site and optimize the performance of the system based on the results.
